

EDUCATION

University of California, Berkeley CS61A, EE16A, EE199/CS199	2016-2020
De Anza College 4.0 GPA; Differential Equations, Linear Algebra	2014-2016
Monta Vista High School 4.0 GPA; AP Computer Science	2012-2016

SKILLS

Java

C++

Python

Git

HTML/CSS

Android

EXPERIENCE

Institute of Electrical and Electronics Engineers Officer, Course Facilitator for EE199/CS199: Micromouse facilitate a DeCal in which participants create a robot mouse that completes a maze	2016
A-Star Computer Science Summer Camp Instructor taught competitive programming to students in preparation for USACO	2016
Monta Vista High School Science Bowl Team Captain led and managed team in preparation for Science Bowl	2016
Probability in Computer Science at Stanford University Student - created Naive Bayes classifier and logistic regression model for predicting data - applications included predicting political affiliation based on voting records and diagnosing heart abnormalities based on X-ray data (from UC Irvine Machine Learning Repository)	2015
Angelove and Artism Creativity Center Webmaster, Volunteer volunteered to help develop empathy of autistic children, managed website	2014-2016
Future Business Leaders of America Mobile Application Development team 2nd place in California and 7th place internationally	2014-2015
UC COSMOS at UC Davis Student studied mathematical topics including combinatorics, knot theory, and topology	2014

ACHIEVEMENTS and AWARDS

USA Computing Olympiad

- Platinum division, algorithmic problem solving using C++

USA Physics Olympiad

- USA Physics Team semifinalist and Silver medalist

American Mathematics Competitions

- qualified for AIME 2014 and 2015, scored 10 on the AIME I 2015

National Merit Scholarship Finalist

- recipient of \$2500 scholarship
