

EDUCATION

University of California, Berkeley <i>Relevant coursework: CS61A, EE16A, EE199/CS199</i>	2016-2020
De Anza College <i>4.0 GPA; Relevant coursework: Differential Equations, Linear Algebra</i>	2014-2016
Monta Vista High School <i>4.0 GPA</i>	2012-2016

EXPERIENCE

Institute of Electrical and Electronics Engineers <i>Officer, Course Facilitator for EE199/CS199: Micromouse</i> facilitate a DeCal in which participants create a robot mouse that completes a maze	2016
A-Star Computer Science Summer Camp <i>Instructor</i> taught competitive programming to students in preparation for USACO	2016
Monta Vista High School Science Bowl Team <i>Captain</i> led and managed team in preparation for Science Bowl	2016
Probability in Computer Science at Stanford University <i>Student</i> - created Naive Bayes classifier and logistic regression model for predicting data - applications included predicting political affiliation based on voting records and diagnosing heart abnormalities based on X-ray data (from UC Irvine Machine Learning Repository)	2015
Angelove and Artism Creativity Center <i>Webmaster, Volunteer</i> volunteered to help develop empathy of autistic children, managed website	2014-2016
Future Business Leaders of America <i>Mobile Application Development team</i> 2nd place in California and 7th place internationally	2014-2015
UC COSMOS at UC Davis <i>Student</i> studied mathematical topics including combinatorics, knot theory, and topology	2014

ACHIEVEMENTS and AWARDS

USA Computing Olympiad Platinum division, algorithmic problem solving using C++	American Mathematics Competitions qualified for AIME 2014 and 2015, scored 10 on the AIME I 2015
USA Physics Olympiad USA Physics Team semifinalist and Silver medalist	National Merit Scholarship Finalist recipient of \$2500 scholarship
